

**Your group practice solution provider tailoring your instrument needs to each practice within your dental service organization through a team approach, customization, and commitment to quality.**

**1. Team Approach** – Collaborating with your distributor of choice and your procurement team to obtain the highest quality instruments and sutures in a cost effective manner.

**2. Customization** – Helping your general dentistry and specialty practices pick the correct instrumentation, based on need, which will help them to maintain a high level of patient care.

**3. Quality** - Recognizing that quality is of the utmost importance, A. Titan is a certified medical device compliant facility, and maintains a quality management system committed to complying with customer and ISO 9000-13485 requirements. A. Titan is continually developing and improving upon its advanced manufacturing processes, to build upon its legacy of innovation and quality to meet tomorrow's challenges. Our biggest advantage is the capability to manufacture every component at our facility located in Orchard Park, NY. This enables us to expedite the manufacturing process while maintaining the highest level of quality control. In turn we are able to offer our customers life time warranties on our instruments.

**4. Advanced Manufacturing Solutions** - A. Titan has transformed the art of manufacturing by continuing to implement new technological advances into the manufacturing process. Experienced staff and engineers work as a team to quickly adapt to the ever changing world of production machining. For over 3 decades our state of the art manufacturing facility has committed to bringing innovative products to market in the dental industry. Taking ideas from concept to market, our highly trained staff of engineers and certified production workers bring technical expertise and industry knowledge to deliver quality products quickly and efficiently.

**Customizing your instrument needs, one DSO at a time**

Since our inception in 1998 A. Titan has been recognized as an innovative leader in the dental community. It's our mission to enhance the quality of patient care by providing superior quality products and instrumentation on the cutting edge of dentistry.

Focused on expanding the reach of the A. Titan brand, our diverse product line is offered through dealers around the world. Headquartered in Orchard Park New York our instruments are produced in our 100,000 square foot state of the art manufacturing facility or designated for production in Germany at our partner location.

We strive to achieve our mission of enhancing patient care by providing continuing education support to universities throughout the world, working closely with key opinion leaders to develop innovative instrumentation, and maintaining the highest levels of customer service. Forging long lasting relationships, our team focuses on bringing products to market that encourage the promotion of aesthetic perfection.
